OBJECTIVE

Cloud & Infrastructure Engineer with hands-on experience in IT operations, incident management, service desk support, and analytics reporting. Skilled in Power BI, ITSM operations, troubleshooting, and cloud infrastructure monitoring with a focus on delivering operational insights and service improvements.

EXPERIENCE

Cloud & Infrastructure Engineer

LTMindtree | OCT 2025 – Present

- Resolved incidents while adhering to SLA targets for a US healthcare client.
- Supported a large-scale healthcare environment by handling incidents, service requests, and troubleshooting activities while maintaining SLA compliance.
- Troubleshot medical imaging workflows and endpoint devices, including X-ray systems, reception phones, PIN pads, printers, and peripherals.
- Assisted end users through remote troubleshooting while maintaining SLA compliance.
- Coordinated with internal teams for incident escalation and resolution.

PROJECT(S)

Enterprise ITSM & Cloud Operations Analytics Dashboard (Power BI)

- Developed a 4-page Power BI dashboard covering ITSM operations, engineer performance, and cloud infrastructure health.
- Implemented data modeling, DAX measures, KPI tracking, SLA monitoring, and trend analysis.
- Delivered insights on workload distribution, incident trends, resolution metrics, availability, and capacity utilization.

E-Commerce Web Application for Pet Essentials

A user-friendly e-commerce platform designed for purchasing pet essentials, built with HTML, CSS, JavaScript seamlessly.

PROFESSIONAL SIMULATIONS

- Walmart Global Tech | Forage

Completed the Advanced Software Engineering Job Simulation by Walmart Global Tech through Forage, gaining insight into real-world engineering practices. The program offered a hands-on overview of tasks related to software projects in a professional setting.
